## BRITISH IN DANGER IN **SOUTHERN ARABIA NOW?**

Wireless Has Them Virtually Prisoners In Aden.

Heavy Fighting In the West-Austrians Held Up.

The great trade union congress at Bristol, England, to-day passed by an overwhelming vote a resolution declaring against the adoption of conscription in any form, as "against the spirit of British democracy" and as endangering the people's liberties. Specific opposition to the military service bill was registered by the

The Austrians, having secured possession of virtually all of Montenegro, whose remaining defenders, according to Vienna, are fast laying down their arms, are pushing southward in Albania, but apparently are moving deliberately, although without encountering much resistance. Their road down the Adriatic seasonst leads them to Durazzo, following Lieir cocupation of fian Glovanni di Medua, but advices from Albania indicate that their progress is likely to be slow, owing to the condition of the roads.

### LABOR IS AGAINST CONSCRIPTION BILL

British National Labor Party Congress Opposes the Measure In Any Form.

To Agitate For Repeal If the Military Service Bill Becomes Law.

(By Times Special Cable.)

Bristol, Eng., Jan. 27, 1.14 p.m.—A resolution, protesting in the name of the National Labor Party against the adoption of conscription in any form, was passed by the Labor Congress to-day by a card vote of 1,786,000 against 219,000.

The resolution follows:

"Resolved, that this National Labor Party protests emphatic against the adoption of conscription in any form, as it is against the spirit of British democracy, and full of danger to the liber

the spirit of British democracy, and full of danger to the li-of the people."

When the delegates assembled to-day for the second day sion, they found this motion on their tables, and also one military service bill, which were designed to take the place numerous proposals which have been made on these subjects. The other motion placed before the congress follows:

"The conference declares its opposition to the military bill, and in the event of it becoming law decides to agitate repeal."

## The Dismal Record of **PROHIBITION**

T HAT Prohibition is an absolute failure wherever tried is proved up to the hilt.

Here, for example, are a few facts and figures gathered from an end-less number, relating to the United States.

In Tennessee the expenses of government have increased, under Prohibition, from \$5,000,000 to \$10,000,000 a year, and the cost of criminal prosecution has more than doubled.

### States Default

NORTH CAROLINA, Alabama and West Virginia have defaulted in payment of their debts under Prohibition; West Virginia, having suffered its public institutions to go for months without money. Incidentally the increase of crime in North Carolina in four years was 21 per cent.

### Suicides. Deaths, **Divorce**

### Sixty Years of **Prohibition**

In Prohibition Kansas, the average death rate (apart from suicides), is higher than it is in 29 heense States, the registered suicide rate higher than in 20, and the divorce rate higher than in 27 license States. As to material prosperity, a comparison between Kansas (Prohibition) and Nebraska (License), two contiguous States under the same conditions, shows that in 20 years the farm property value in Kansas increased 175 per cent. and in Nebraska 385 per cent, while in 10 years the incebtedness per head in Kansas had doubled, and that in Nebraska had actually decreased.

In Maine, which has had Prohibition for 60 years, no one claims that it is a success. It may suffice to say that Maine has three times as many divorces as Kansas; that the number of commitments for drunkenness almost doubled in three years; that in 20 years the death rate from alcoholism increased 53 per cent., as contrasted with a decrease of 34 per cent. in 17 license States; that Portland, its chief city, has one arrest for drunkenness to every 21 inhabitants, while Milwaukee has one to 123; and that the Savings Bank Deposits are largely below those of the other New England States.

### Illicit Liquor Traffic

A 8 to illicit stills, the number of seizures by Federal Revenue Officers increased from 1,130 in 1908 to 2,677 in 1914.

In 1911 20,000,000 gallons of whiskey were shipped by "mail orders" to consumers, chiefly in the Prohibition States; and, while in 1897, the total output of whiskey was 97,000,000 gallons, yet in 1913, with half the country dry, it was 185,000,000.

### PRESENT BLOCKADE TO BE KEPT IN CONTROL

But Allies Will Tighten It If Possible ... Sir E. Grey's Statement.

### French Fleet Will Assist--Figures Given Lately Are Grotesque.

London, Jan. 28.—Hereafter French warships will assist British vessels in blockade duties both in the English Channel and the North Sea, partici-pating in the examination of mails as well as cargoes.

London, Jan. 28.—The speeches of Sir Edward Grey in the House of Commons and of the Marquis of Lansdowne, Minister without port-folio, in the House of Lords this al-terance on the blockade policy of Great Britain dispelled all hopes among those favoring a formal block-ade of Germany that the Government would push such action. The Foreign Secretary made the fol-lowing statement:

neutrals formerly drew from Germany. The figures given for exports deal coil y with goods which left the United States, and gave no information concerning their arrival. Six Edward referred, as an example, to the case of much cargo much control of the control o

contrasted Germany's attitute in a zard to neutrals with the British at-titude, and said:
"If ever there was a war in which we and our Allies could employ re-cognized beligerent rights to their utmost extent it was this war. What would have been said by neutrals if we had done what Germany has
